

Clear Edge® is an innovative solution provider focusing on three business sectors: Screen & Filter, Process Belts and Screen Print. The company offers an extensive range of wet & dry filtration and screening products for various industries including metallic and synthetic fabrics for conveying, forming and liquid filtration applications and VS-Monoprint® mesh for screen print applications.

Clear Edge is investing in and expanding both its new Media Development and weaving centre based at its main manufacturing plant based at Geldern - Walbeck, Germany. Because of this the company is seeking a manager to take on responsibility for both product and process innovation:

Head of Product Development (m/f)

The main areas of responsibility of the role will include:

- New and improved product & process developments with customers using existing & new technologies
- Managing projects in a systematic way to assist with commercial requirement, resourcing and modern management practices
- End-to-end media development co-ordination across the main sites, building on our innovation power
- Managing the central technical resource & group projects e.g. tracking of individual reports and providing visibility of work undertaken
- Conduct technical evaluations of customer's products and processes with written reports

Qualifications and / or experience needed:

- Graduate standard minimum (post graduate to MSc or PhD an advantage), ideally with a degree or post graduate work in Polymer / Materials Science, Chemistry or Chemical / Mechanical Engineering
- Ideally fluent in both English and German
- Minimum of 4 years managing a structured technical function
- Background in filtration and / or fabrication, woven or nonwoven production environment would be advantageous
- Proven hands on experience of structured R&D project management, including commercial evaluation and launch against tight time scales
- Management of a multi disciplined team in co-operation with other overseas divisional resources as required
- Experience in supplying fast accurate technical support to the market place
- Excellent communication and interpersonal skills with the ability to influence at all levels

Have we sparked your interest? We are looking forward to receiving your application / CV (please add your earliest possible date of entry and your current salary):
